The objective of the panel discussion is to understand the need, demand and truths of the affordable housing sector as it stands today. It is part of a research being headed by IdeinLab Architects in close coordination with Rachana Sansad's Institute of Environmental Architecture. Among other steps, the research also includes an ethnography study of Economically Weaker Sections and Low Income group populations at their homes in Mumbai and a detailed study of materials and technologies suitable for affordable housing. The findings will then be used to design and develop homes.

## THE PANEL DISCUSSION IS OPEN AND FREE FOR ALL
