Being a disciple and Gandabandhit Shagird of Begum Parveen Sultana and Ustad Dilshad Khan, I have full dedication towards music. Making Hindustani Classical vocal music popular among young generation is my moto and I love to impart quality training especially to children in their very early age. Being a music teacher in Municipal school for many years I have a proud privilege to nurture Performing Art talents in children from economically backward class. I take conscious efforts to make young talents master different streams of music viz light, semi classical and Hindustani Classical music. Music is not just learning so I take extra efforts to make children familiar to various platforms like stage shows, Radio, T.V. etc., encourage them to participate in various competitions which help them to gain more confidence.
